Learning Disabilities Health Facilitation

Developed by The Health Facilitation Team in Walsall Acknowledgements to

Who are we?

Marie Perry

Dawn Jones

We are a team of four who work with adults who have a learning disability.

Tom Cooper

Pauline Newell

We enable people to:

- Learn about health
- Promote good health
- Prevent ill health

How can we help?

We support people with a learning disability to learn about their health.

This can be in a group session or individually.

We work with other professionals, like GP's offering advice on how to support someone with a learning disability.

We support people with their health appointments.

Training Room

We provide training for people who support someone with a learning disability around their health needs.

We help support people with My Health Book.

We can provide accessible health information.
